To the Vulcan Spain Team,

Rigat is a company related to the operation of the water cycle in the region of Anoia since 1921. For more than 80 years, we have shared the same commitment and responsibility to ensure at all times the water supply is of the highest quality with minimal environmental impact.

We installed several Vulcan units just before the water meters, which were always filled with calcium and often become clogged. Because of these problems, we would have to change them frequently.

In the batteries where we installed the Vulcan S100 and S500, we always experienced the same results - there wasn't any more limescale and calcium deposits.

We take this opportunity to thank you for the great service.
