

## Angsana Xi'an Lintong

### About Angsana Xi'an Lintong

It is a five-star spa hotel of Singapore Banyan Tree Group in Xi'an, which blends traditional Chinese architecture and urban style. There are 25 outdoor pools with five themes and an outdoor family pool, which bring a unique spa experience.

### Before Vulcan was installed

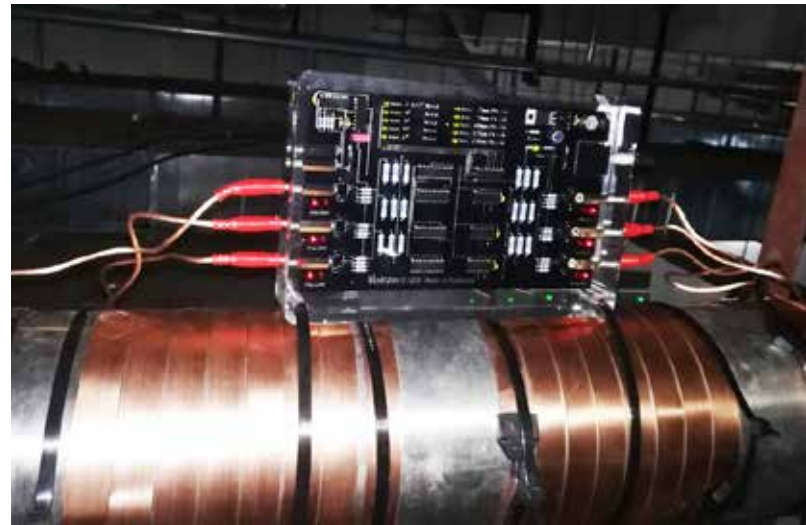

The client originally planned to install 3 water softeners to solve the serious scale problem of the sauna steaming system and the kitchen steamer, which had to be cleaned once a month manually. After some communication, the client decided to install Vulcan as a test.

### After Vulcan was installed

The client was very satisfied with the results. When the kitchen steamer was opened, the scale was soft and easy to clean. He also noticed that there was some white scale powder flowing out of the shower system.
