

Beauty Star

### Beauty Star Co., Ltd.

Beauty Star Co., Ltd. is a state-owned enterprise that produces plastic packaging boxes, cosmetic packaging boxes and other injection molding products. It also cooperates for years with Wrigley Company, SK2, Blue Moon Industry and many other famous enterprises.

### Installation details

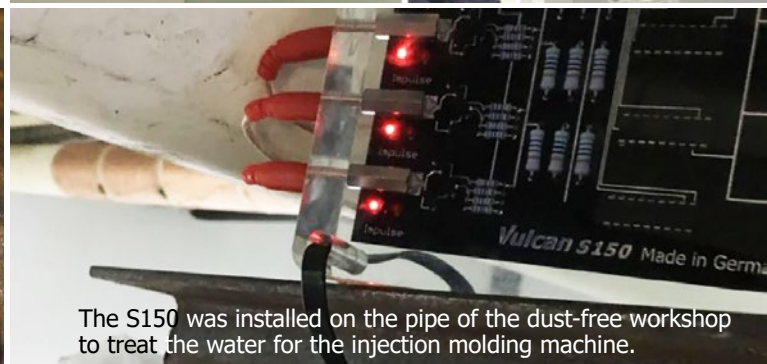

Model: Vulcan S150  
Location: On the pipe of the dust-free workshop  
Purpose: To solve the scaling problems of the injection molding machine  
Installed by: Xinriyuan Company

### Before Vulcan was installed:

The heat exchanger and the pipe were badly scaled.

### 6 months after Vulcan was installed:

- When we opened the valve of the heat exchanger, we noticed that a lot of scale had disappeared
- The chiller and the cooling tower stay clean
- The "small holes" of the injection molding machine have become very clean, when they were blocked before, and the corrosion on the valve has gradually disappeared.

The S150 was installed on the pipe of the dust-free workshop to treat the water for the injection molding machine.

Before Vulcan was installed in front of the filter, it was badly scaled.

After Vulcan was installed, the scale on the inner wall has been removed and the coating has gradually appeared.

The valve of the injection molding machine before Vulcan was installed.

The "small holes" become clean and the corrosion of the valve has gradually disappeared.
