

护国寺宾馆

Installation details

Location:	Huguosi Hotel www.hgshotel.cn
Treatment area:	127 rooms
Model:	 1 x Vulcan 3000 1 x Vulcan S10
Purpose:	To protect the heat exchangers, water pump, water tank, shower heads and the whole pipeline
Installed by:	Beijing Vulcan Water

The Vulcan effect

In the summer, Vulcan 3000 was installed in the solar system to solve the scaling problems in the vacuum tubes. After Vulcan was installed for 3 months, the scale has been gradually softened and reduced.

About Huguosi Hotel

Hutong is the cultural characteristic of old Beijing, and Huguosi Hotel is located in this hutong.

Vulcan S10 was installed in front of the heat exchanger to solve the scaling problems of heat exchangers, pumps, water tank, shower heads and the whole piping system.

Vulcan 3000 was installed on a solar water pipe to solve the scaling problem of the solar vacuum tubes.
