VULCAN CATALUNYA

Suècia,

08211 CASTELLAR DEL VALLÉS

To the Vulcan Team:

I have the pleasure, in my name of the Community of Neighbors, to tell to your company, after having the Vulcan equipment installed in our building, the degree of satisfaction of the neighbors is very high, and is covering the needs we were looking for.

After evaluating several proposals and alternatives, we have decided for your advanced technology for the easy assembly, reduced space location, no maintenance cost, high performance, and especially for the ecological treatment.

I would like to, expressly, thank the advice and care given to our committee in the selection process of the technology for softening our water systems.

Regards,

M.Magdalena BARRIOS

President
