ACCOMMODATIONS

RESTAURANTS & BARS

Location:

Memories Splash Punta Cana
Punta Cana, Dominican Republic

Models installed:

2 x Vulcan S500
1 x Vulcan S100

Installed by:

InterClima

Application:

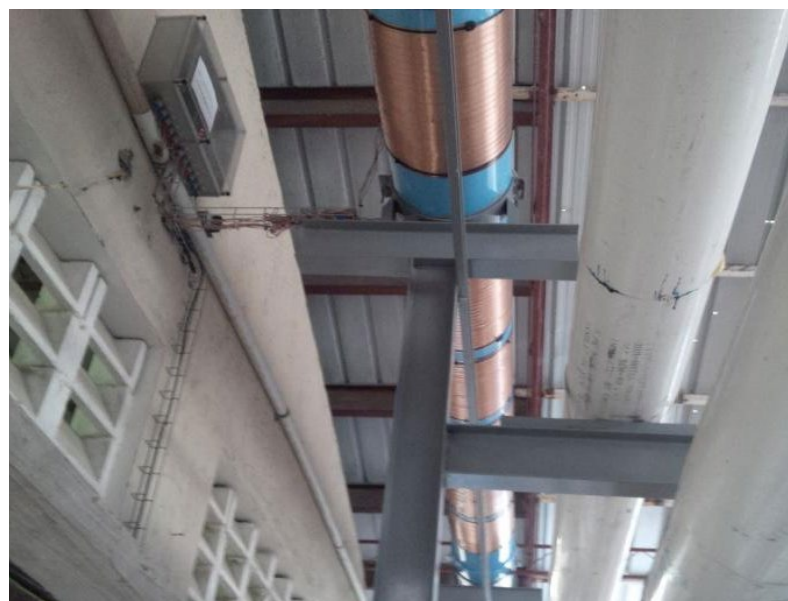

The Royalton Punta Cana Resort & Casino is a 1000 room resort located on the beachfront in Punta Cana, Dominican Republic.

Two Vulcan S500 were installed on the main input pipe in order to combat scale build up and increase efficiency of the three cooling towers.

A Vulcan S100 is also installed on the resort's main hot water system, in order to remove and prevent scale build up in the heaters/boilers, which provide hot water throughout the entire resort and casino.

Vulcan S500 protective casing

Vulcan S500 cable windings
