

LURDY HOUSE OFFICE AND SHOPPING CENTRE

Installation details

Location: Lurdy Ház
Budapest, Hungary
www.lurdyhaz.hu

Model: 1 x  S25

Area: On the main inlet that comes to the cooling and heating center

Purpose: To solve the scaling problems of cooling towers. Before installing Vulcan, there was no solution, the client had to change the whole cooling panels every 4 years.

Installed by: VARÁZSMAG Kft

Vulcan S25 was installed on the main inlet to treat the cooling towers.

The 100 000 square-meter Lurdy House Shopping Mall and Office Centre (Lurdy Ház) is one of the largest of its kind in Hungary. It offers spaces for offices, shops and warehouses for rent. In addition, there are many retail facilities located in the building, such as shops, restaurants, a cinema, diverse entertainment places and a conference center.
