

LONG-TERM CARE CENTRES

Installation Details

Location: Long-term care centres (CHSLD)

Fortierville, Québec

Model:  Vulcan 5000

Installed by: Gestion L.B. Inc

After 6 months, the opening of the hot water tank:

Before using Vulcan: hard scale problems in the hot water tank.

With Vulcan, the scale has softened and the large pieces of scale have fallen, it could be taken out by the technician easily.

The client's feedback:

"Here is what was taken out of the tank and as you can see the walls of the tank has no trace of scale, very good result."
