

Installation details

Location: Shanghai Techwell Biopharmaceutical Co., Ltd.

www.techwell-cn.com

Model:  S25 x 2

 S50 x 3

 S250 x 2

Area: All Vulcan units treat the centrifugal chillers

Purpose: The central air-conditioning cooling water system was heavily scaled and difficult to clean. The customer is looking for an environmentally friendly way to replace traditional chemicals.

Result: Before there were automatic dosing machine that added a little bit of chemical every day, but now Vulcan replaces the use of chemicals.

Installed by: Xinriyuan
