

Yinmore Sugar Industry Co., Ltd. is the largest sugar company in Yunnan Province, mainly engaged in the manufacture and sale of white sugar, refined white sugar, alcohol, compound fertilizer and organic fertilizer.

### Installation 1

Location: The inlet of the fermentation broth in the alcohol workshop  
 Pipe size: 80 mm  
 Model: Vulcan S25  
 Result: After 2 months, the scale in the fermenter has been significantly reduced, it shows that Vulcan is also effective at the fermentation broth.

Vulcan S25 was installed at the inlet of the fermentation broth

### Installation 2

Location: The distiller inlet in the alcohol workshop  
 Pipe size: 80 mm  
 Model: Vulcan S25  
 Result: After 2 months, the scale in the distillation tower has been significantly reduced.

Vulcan S25 was installed at the distiller inlet

### Installation 3

Location: Power workshop of the sugar factory  
 Pipe size: 100 mm  
 Water flow: 80 m<sup>3</sup>/h  
 Model: S100  
 Purpose: To solve the scaling problems of boilers  
 Result: After 2 months, the scales in the salt tank of the water softener have been reduced, and the scales from the pipe also began to fall off, so the water softener was turned off.

Vulcan S100 was installed in the power workshop

### Installation 4

Location: The outlet of the refined syrup, the material temperature is 60 °C  
 Pipe size: 150 mm  
 Model: S100  
 Purpose: To solve the scaling problems of the refined syrup processing equipment  
 Result: The scaling problems of the syrup processing equipment and the filter have been solved, and the crystallization of sugar has not been affected.

Vulcan S100 was installed at the outlet of the refined syrup
